BASIC COMMANDS CHEATSHEET

```
Vogue-and-Code:~ aprilspeight$ ls
Python          Brunch_Menus          Git_Hub
Projects        Command_Line          Shopping

Vogue-and-Code: aprilspeight$ cd command_line ; ls
Cheatsheets     Documentation         Videos

Vogue-and-Code:Command_Line aprilspeight$ touch basics.txt
```

Be in Command!

The command line is a user interface that is navigated by typing commands at prompts instead of using a mouse. Unlike a Graphic User Interface (GUI), a command line only uses a keyboard to navigate by entering commands and does not utilize a mouse for navigating.

PWD

`$ pwd`

Display current working directory

LS

`$ ls`

List contents within a directory

CD
